PROFESSIONAL SUMMARY

Quality Assurance Engineer and Software Development Technologist with hands-on experience in software testing, test automation, API validation, and banking systems. Skilled in manual and automated testing using Cypress, Selenium, Postman, and JavaScript. Experienced working in Agile/Scrum environments, supporting UAT processes, validating mobile applications, and ensuring software quality across financial systems. Strong analytical mindset, attention to detail, and problem-solving skills with a passion for continuous learning and delivering high-quality software solutions.

TECHNICAL SKILLS

- Programming Languages: C#, JavaScript, Python, SQL, C++
- Testing Tools: Cypress, Selenium, Postman
- Databases: SQL Server, MongoDB, Oracle SQL Developer
- Methodologies: Agile, Scrum, UAT Testing, Functional Testing, API Testing
- Tools & Platforms: Android Studio, Jira, Azure DevOps, Git/GitHub
- Automation Testing: Test script development, maintenance, regression testing
- Soft Skills: Team collaboration, communication, analytical thinking, adaptability

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer | Babel Group – Project: PYME | Banco BHD

February 2026 – Present

- Designed and executed functional and regression test scenarios for banking applications.
- Managed test plans, scenarios, and cases using Jira and Azure DevOps.
- Collaborated with development and business teams to identify and resolve software defects.
- Validated application functionality before production releases to ensure software quality.
- Participated in Agile ceremonies, including sprint planning, daily meetings, and retrospectives.

Quality Assurance Specialist I | Babel Group – Project: Core | Banco Popular Dominicano

August 2025 – December 2025

- Worked across functional and technical banking environments to validate software processes.
- Performed UAT support for mobile banking applications, identifying issues before production deployment.
- Created and validated loans using Postman, ensuring API responses and backend integrations worked correctly.
- Developed automated test scripts for Siebel modules using Cypress and JavaScript.
- Analyzed and converted existing manual test cases into automated testing scripts.
- Used Android Studio to identify and troubleshoot mobile application issues.

Intern Quality Assurance Specialist | Babel Group

March 2025 – August 2025

- Executed functional testing to validate software quality and application performance.

- Developed and maintained automated test scripts to improve testing efficiency.
- Supported software quality assurance activities in Agile development environments.
- Collaborated with QA teams to document defects and validate bug fixes.

Programming & Robotics Instructor | RoboThink

April 2023 – August 2025

- Taught robotics and programming to children between 6 and 13 years old.
- Developed educational projects focused on critical thinking, creativity, and teamwork.
- Introduced students to programming logic and technology-based problem solving.

EDUCATION

- Software Development Technologist – Instituto Tecnológico de las Américas (ITLA) | October 2025
- Development and Administration of Computer Applications – Instituto Técnico Salesiano (ITESA) | October 2021

CERTIFICATIONS

- ISTQB Certified Tester Foundation Level (v4.0) – June 2025
- Scrum Fundamentals Certified – April 2025
- Postman API Fundamentals Student Expert – August 2025
